

Software Developers Kit

Software Developers Kit

Capscan's Software Developers Kit (SDK) provides developers with the ability to integrate Capscan's products into their own applications. The products are available in a wide range of APIs for seamless integration into applications to make them more user-friendly and to reduce the need for training across two applications.

Provided with the kit is the API Guide fully indexed and written in HTML - easily accessible via your web browser. Supplying the API Guide in this format makes it more dynamic and easier to keep up-to-date. It outlines the ways in which the APIs function, and also provides examples of code that has been written to integrate our software in the past. Very often integration is merely a case of cutting and pasting the relevant code from the guide itself.

Advice and Assistance

Our development staff have considerable experience and are happy to advise and assist with the integration of the SDK into the relevant application.

FEATURES AND BENEFITS

Software Developers Kit:

- Is available in a wide range of APIs for seamless integration into applications.
- Provides a comprehensive API Guide for Capscan products including Matchcode, Matchcode Client/Server, Zapcode and Sortcode - all fully indexed and written in HTML and PDF formats.
- Contains examples of code for Capscan products for integrating into various applications.

Software Developers Kit

TECHNICAL FEATURES

- Capscan APIs are available in a wide range of formats including C static library, DLL (Win32)/Shared library (Unix), Visual BASIC DLL (compatible with Lotus Notes), ActiveX Control (compatible with ASP), VB Automation Server and Java (see table 1).
- Software platforms supported include Linux, Windows NT/2000/XP/2003/Vista etc.
- Hardware platforms supported include RS/600, Alpha, I386, PA-RISC, MIPS etc.

Table 1: API Supported Systems

Operating System	Hardware	Version	Matchcode	Matchcode Client/Server	Sortcode	Zapcode	Nearcode
AIX	Power	5.2	✓	✓	✓	✓	
Tru64	Alpha	5.1	✓	✓	✓		
HP-UX	PA-RISC	11	✓	✓	✓	✓	✓
HP-UX	Itanium	11	✓	✓		✓	
Linux	I386	Glibc 2.3.2	✓	✓	✓	✓	
Solaris	Sparc	8,9,10	✓	✓	✓	✓	✓
Solaris	X86	10	✓	✓			
Win32	I386	NT/2000/XP/2003/Vista	✓	✓	✓	✓	✓
